

ME Engineers opens new office in Abu Dhabi

ME Engineers is proud to announce the opening of a new full service office in Khalidiyah, Abu Dhabi. This office will service projects in the Middle East and the surrounding regions.

ME Engineers is a global building design firm with a 25 year history of successful projects. Offices around the world provide engineering consulting services on a wide range of project types.

Our portfolio includes projects of all building types, from small complex renovations to the development and redevelopment of iconic buildings. Our projects include some of the largest and most recognized structures in the world. ME Engineers has successfully delivered over 70 stadiums and arenas worldwide.

In addition to the traditional building design services we also offer specialty services including CFD airflow modeling as well as 3D computer modeling with Revit MEP, Autocad MEP, 3D Studio Max and BIM.

The firm has an extensive sustainable design portfolio and is ranked #2 among MEP firms on the ENR Top 100 Green Design rankings after completing more than 125 LEED Certified projects over the past 5 years.

Current projects in the GCC include the Doha Airport in Qatar, future projects will include sports and entertainment projects in the region as well as higher education, cultural and commercial projects.

The office has been approved for license by the Department of Economic Development for the municipality of Abu Dhabi.

Approved services include Consulting Engineering in the disciplines of Mechanical, Electrical and Information Technology.

The opening of the Abu Dhabi office continues the firm's commitment to extending our reach to better service major projects across the globe.

The Abu Dhabi office will be led by Dr. Toufic Hawat, PhD. Dr. Hawat has 20 years of international engineering experience with firms in Europe, the Middle East and USA.
